## PROFESSIONAL SUMMARY

---

Full Stack Developer with 4.5 years of experience in Java, Spring Boot, and Angular. Reduced deployment time by 90%, security vulnerabilities by 97%, and automated manual reporting workflows. Experienced in microservices, production support, and Agile/SAFe delivery.

## TECHNICAL SKILLS

---

- **Programming Languages:** Java, TypeScript, SQL, HTML5, CSS3
- **Backend Technologies:** Spring Boot, Microservices, REST APIs, Hibernate, Spring Data JPA, Spring Cloud Config
- **Frontend Technologies:** Angular, TypeScript, HTML5, CSS3
- **Databases:** Oracle SQL
- **Cloud Platforms:** Oracle Cloud Infrastructure (OCI)
- **Operating Systems:** Linux
- **Testing Tools:** JUnit, Mockito, JMeter
- **DevOps/Tools:** Git, GitHub, Maven, Postman, Swagger
- **Monitoring & Logging:** AppDynamics, Splunk
- **Core Concepts:** System Design, SOLID Principles, Microservices Architecture, Agile/SAFe
- **Security:** Okta, OAuth 2.0, SSL/TLS, Vulnerability Remediation
- **AI & Developer Productivity Tools:** GitHub Copilot, ChatGPT, Microsoft Copilot

## PROFESSIONAL EXPERIENCE

---

### FedEx Express | Full Stack Developer | Hyderabad, India

April 2024 – Present

- Delivered 5+ enterprise applications with consistent on-time releases and zero rollbacks.
- Architected 10+ distributed services, reducing API latency by 30% and improving fault tolerance.
- Developed REST APIs using Java and Spring Boot, handling 50K+ daily transactions.
- Consolidated authentication into a unified Okta role-based access model across 4 applications.
- Eliminated ~95% of infrastructure vulnerabilities (50K+ to under 2.5K), meeting compliance audits.
- Wrote deployment scripts with rollback support, cutting release time from 4+ hours to ~1.5 hours.
- Streamlined report generation, reducing processing time from 3+ hours to under 10 minutes.
- Implemented SSL lifecycle tracking across 20+ applications, preventing 100% of certificate expiries.
- Configured Splunk dashboards and AppDynamics alerts, reducing mean time to resolution by 40%.
- Resolved critical incidents within SLA timelines, maintaining 99%+ uptime across 12 services.
- Enforced code review standards and testing practices, reaching 80%+ coverage across the team.
- Deployed and managed services on Oracle Cloud Infrastructure (OCI).

### Persistent Systems | Software Engineer | Hyderabad, India

February 2022 – April 2024

- Developed backend services using Java and Spring Boot within a team of 8 engineers.
- Created a feedback collection service using Angular and Spring Boot, serving 500+ internal users.
- Diagnosed and resolved performance bottlenecks, improving response times by 15–20%.
- Configured environments using Spring Cloud Config, reducing deployment failures by ~20%.
- Reviewed code changes and ran test suites to reduce defect leakage by 25%.

## EDUCATION

---

**Bachelor of Technology (B.Tech) – Electrical and Electronics Engineering**  
Kakinada Institute of Engineering and Technology | Kakinada

June 2018 – October 2021

**Diploma in Electrical & Electronics Engineering (EEE)**  
Kakinada Institute of Engineering and Technology | Kakinada

June 2015 – May 2018

## CERTIFICATIONS

---

- Certified SAFe 6.0 Practitioner - Scaled Agile, Inc.

## RECOGNITIONS & ACCOMPLISHMENTS

---

### **Bravo Zulu Award – Deployment Optimization and Security Remediation**

- Reduced deployment time from 4+ hours to ~1.5 hours using custom shell scripts.
- Streamlined report execution, cutting processing from 3+ hours to under 10 minutes.
- Simplified application access workflows, removing 5 manual steps per request.
- Eliminated ~95% of vulnerabilities (50K+ to under 2.5K) to pass compliance audits.
- Introduced SSL certificate tracking, ensuring zero missed renewals across 20+ apps.

### **Bravo Zulu Award – Regulatory Adaptability**

- Updated application workflows to support tariff and regulatory changes without downtime.
- Coordinated across 3 teams to align system updates with new government requirements.
- Delivered compliant updates within 2-week deadlines, preventing rollout delays.

### **PPQ Award – Outstanding Performance**

- Contributed to EEI Automation project, reducing manual processing effort by ~60%.
